

International Day of Peace 2021

Ms. Mya Hnin Yee Shein

She is an international student from Myanmar who is currently attending a master's degree in Communication and Media at Ewha Womans University. From 2011 to 2015, he studied Korean at Yangon University of Foreign Languages in Myanmar and studied Korean for four years. She worked for a translation company and publishing company. And my final dream is to be a writer who wants to write a book that gives Myanmar people "passion and strength." She came to Korea in 2019 and has been living in Korea until now. After graduation, a military coup in Myanmar took place in front of his hard-working life with the will to expand his media studies in Myanmar along with her dream of becoming a writer.

Due to these circumstances, she escaped from his ordinary international career and came out as one of the representatives of Myanmar's Spring – Korea, a revolutionary democratization team, and fought a lot for the democratization movement. Significant activities include Myanmar's Spring Cultural Festival, Group Blood Donation Event, Interviews to Inform Myanmar's Local Situation, and Fundraising Campaign for Myanmar's Democratic Struggle. She has been working hard to regain Myanmar's lost spring.
