

International Day of Peace 2021

Mr. Zin Min Paing

After graduating from high school in Myanmar, he came to Korea in December 2013. Since then, he has been studying at Korea Aerospace University (Major in Air Traffic) and is currently in the first semester of his Ph.D. program.

He played the guitar, took pictures, and was quiet, but he worked hard on democratization activities with an organization called "Myanmar's Spring (Korea)" after the coup in Myanmar. Along with Myanmar's spring team, he collaborated with the Gyeonggi Art Center, the Gyeonggi-do Assembly, and the Jeonnam Provincial Gugak Group to support democratization. In addition, to repay Korea's active support for democratization in Myanmar, the first group blood donation event was held across Korea and will be continued.

In addition, Myanmar's spring team will be another driving force in strengthening Myanmar's education system by supporting the online education system not only for the aforementioned activities but also for those who are not properly educated in Myanmar.
