

International Day of Peace 2021

Ms. Su Win Lei

Currently, Ms. Su Win Lei is a master's degree in advertising and public relations at Kookmin University (Major in PR and Advertising). While learning Korean as a university major in Myanmar, I decided to study abroad to feel attracted to Korea. She is interested in international issues and Korea, so she has participated in workshops and youth programs since she was in college. In addition, I did many environmental and social volunteer activities.

She came to Korea in September 2020. From the start of the coup in Myanmar in February 2021, she began democratization activities by participating in one-person/group protests and online and offline campaigns in Korea. Since March, she has been a director of the Myanmar's Spring - Korea, planning interviews with his team members to promote Myanmar's local situation, fundraising campaigns for Myanmar's democratization struggle and Corona, and helping him find Myanmar's spring. Like Myanmar's spring team, we will continue to do our best for peace in Myanmar, and my hope and goal is that children in Myanmar and all children around the world can dream equally and peacefully.

International Day of Peace (September 21)
